THE CITY UNIVERSITY OF NEW YORK

POLICY REGARDING THE DISPOSITION OF ALLEGATIONS OF RESEARCH MISCONDUCT IN RESEARCH AND SIMILAR EDUCATIONAL ACTIVITIES

1. GENERAL STATEMENT OF POLICY

A fundamental purpose of the University is to foster an environment that promotes the responsible conduct of research and similar educational activities (collectively, "research"), discourages Research Misconduct, and deals promptly with any allegations or evidence of possible Research Misconduct. (Definitions of "Research Misconduct", "Allegation", "Evidence" and other terms in this Policy that appear with initial capital letters are set forth in Section 812 below.) It is the University’s basic expectation that all research conducted by members of the University community will adhere to the highest ethical and moral standards. This Policy describes the procedures to be followed by the University in connection with any allegations that University faculty, staff, and/or post-doctoral associates, and/or students, whether paid by the University or through other funding sources, may have engaged in Research Misconduct. This Policy is based primarily on the regulations codified in the Final Rule regarding Public Health Service Policies on Research Misconduct issued by the U.S. Department of Health and Human Services, effective on June 16, 2005. Like the Final Rule, this also intended to comply with the requirements of applicable regulatory agencies and the sponsors of research.

2. APPLICABILITY

This Policy applies only to allegations of Fabrication, Falsification, and Plagiarism in research, as such terms are defined in Section 812 below, and not to any other kinds of academic misconduct or dishonesty. This Policy applies to all research conducted by University faculty, staff, and/or post-doctoral associates, and/or students, regardless of the academic discipline of the researcher or the sponsorship or source of support for the research. This Policy does not supersede or establish an alternative to any existing University or governmental regulations, procedures, or policies regarding fiscal improprieties, conflicts of interest, ethical treatment of human or animal subjects, or criminal matters, all of which remain in effect.

It is the University’s expectation that all members of the University community will cooperate in reporting suspected Research Misconduct, responding to Allegations, providing relevant Research Records and other relevant information, and participating in Research Misconduct Proceedings.

This Policy replaces the University’s Policy Regarding the Disposition of Allegations of Misconduct in Research and Similar Educational Activities, adopted on June 25, 2007.
3. **REPORTING ALLEGATIONS OF RESEARCH MISCONDUCT**

Allegations of Research Misconduct may be brought to the University’s attention as follows:

3.1. **Any individual may report suspected Research Misconduct by one or more persons orally or in writing.** Such individual (the “Complainant”) should address such Allegation to the Research Integrity Officer (“RIO”) of the College where the subject of the Allegation (the “Respondent”) has an appointment. In cases where the Respondent is a faculty member with joint appointments, the Allegation should be reported to the RIO of the “home College”, as determined in accordance with the University’s Joint Appointment Guidelines. If the Allegation is reported to the RIO orally, the RIO will contemporaneously create a written record of the Allegation.

3.2. **If an Allegation is received by another University administrator or identified in the course of another University process, such as an internal audit, the responsible administrator must immediately notify the RIO of the Allegation in writing.** The RIO may initiate a Research Misconduct Proceeding regardless of the conduct or outcome of the other University processes.

3.3. **A regulatory agency or research sponsor may forward an Allegation of Research Misconduct at the University to the Vice Chancellor for Research or his or her designee, and the Vice Chancellor for Research or his or her designee will then determine whether to accept the responsibility of an Inquiry or an Investigation of the Allegation on behalf of the University.** If the regulatory agency or research sponsor has conducted an Inquiry, the University’s Research Misconduct Proceeding may begin at the Investigation stage. The Vice Chancellor for Research will give notice of the Allegation to the President and the RIO at the appropriate College and, if the Allegation involves sponsored research, the President of the Research Foundation. The University Director for Research Compliance, in collaboration with the RIO, will notify the Respondent of the Allegation.

4. **INDIVIDUAL OBLIGATIONS REGARDING INVESTIGATIONS CONDUCTED BY A REGULATORY AGENCY OR RESEARCH SPONSOR**

If a University faculty or staff member, post-doctoral associate, or student becomes the subject of an Investigation of any kind conducted by a regulatory agency or research sponsor concerning an Allegation of Research Misconduct, such individual must report the existence of the Investigation immediately in writing to the Chief Academic Officer of his or her College. Upon receiving such notification, the Chief Academic Officer will give notice of the pending Investigation to the Vice Chancellor for Research and, if the pending Investigation involves sponsored research, the President of the Research Foundation. Failure to disclose a pending Investigation pursuant to this section may
subject the University faculty or staff member, post-doctoral associate, or student to disciplinary or other appropriate action.

Sections 2, 3, and 4 of this Policy establish the procedures for the initial evaluation, Inquiry, and Investigation of allegations of Research Misconduct involving University faculty, staff, and/or post-doctoral associates. Section 5 sets forth the University’s responsibility to notify federal agencies and other sponsors of research, if any, of certain circumstances that may arise during a Research Misconduct Proceeding, and Section 6 sets forth certain general considerations in connection with the implementation of this Policy. Section 7 sets forth the obligation of each University faculty or staff member and post-doctoral associate to report to the University any inquiry or investigation by a federal agency or other sponsor of research concerning allegations of Research Misconduct involving him or her. This Policy replaces the University’s Interim Policy and Procedure Statement regarding the Disposition of Allegations of Misconduct in Research in Science, adopted on January 29, 1990.

2. INITIAL EVALUATION

2.1. The President of each College within the University, after consulting with the appropriate faculty governance body at the College, will designate a Research Integrity Officer to receive allegations of Research Misconduct involving faculty, staff, and/or post-doctoral associates at the College. The Research Integrity Officer will be an administrator or tenured faculty member at the College with experience in research and will be provided appropriate training to carry out his or her responsibilities under this Policy. The Research Integrity Officer will notify the subject of the allegations, the President, the University Dean for Research, and, if the research involved in the allegations is supported by a grant or contract from a federal agency or other sponsor, the President of the Research Foundation, of any allegations that have been filed. The Research Integrity Officer will then conduct an evaluation of the allegations in order to determine whether an Inquiry is warranted. All efforts should be made to complete the evaluation as expeditiously as possible.

2.2. An Inquiry is warranted if: (1) there is a reasonable basis for concluding that any of the allegations falls within the definition of Research Misconduct in Section 8.15; and (2) such allegation is sufficiently credible and specific so that potential evidence of Research Misconduct may be identified.

2.3. The evaluation of allegations of Research Misconduct will be conducted by the Research Integrity Officer of the College where the subject of the allegations has an appointment. In cases where the subject of the allegations is a faculty member with joint appointments, the evaluation will be conducted by the Research Integrity Officer of the “home College”, as determined in accordance with the University’s Joint Appointment Guidelines.

5. CONFIDENTIALITY
2.4. After the evaluation, the Research Integrity Officer will make a recommendation to the President of the College as to whether an Inquiry is warranted, and the President, in consultation with the Research Integrity Officer, will make the decision as to whether to begin an Inquiry. The President will also consult with the University Dean for Research and, if the research involved in the allegations is supported by a grant or contract from a federal agency or other sponsor, the President of the Research Foundation before making a decision not to begin an Inquiry. If the President of the College decides that no Inquiry is warranted, the Research Integrity Officer will notify the subject of the allegations of this decision in writing.

In order to protect the privacy and professional reputations of those involved, all Research Misconduct Proceedings will be conducted in a fashion designed to maintain confidentiality. Knowledge of the Research Misconduct Proceedings and the disclosure of the identity of the Respondents and the Complainants will be limited, to the extent possible, to those who need to know, consistent with a thorough, competent, objective, and fair Research Misconduct Proceeding, and as allowed by law. Except as may otherwise be prescribed by applicable law, confidentiality of any Research Records or Evidence from which research subjects might be identified must be maintained. Disclosure of such Research Records or Evidence will be limited to those who have a need to know to carry out a Research Misconduct Proceeding. All individuals having knowledge of the identity of the Respondents and the Complainants and access to information in any reports or drafts thereof prepared in connection with a Research Misconduct Proceeding must keep such knowledge and information confidential.

2.5. If the President decides that an Inquiry is warranted, the Research Integrity Officer will notify the subject of the allegations, the University Dean for Research, and, if the research involved in the allegations is supported by a grant or contract from a federal agency or other sponsor, the President of the Research Foundation, in writing at the time of or before the beginning of the Inquiry. The Research Integrity Officer will prepare a summary of the results of the evaluation for use in the Inquiry and provide a copy of the summary to the subject of the allegations, the President, the University Dean for Research, the President of the Research Foundation (if applicable), and the Inquiry Staff, as appointed pursuant to Section 3.1.

6. INQUIRY

6.1. Upon receipt of an Allegation of Research Misconduct, the RIO will promptly determine whether or not an Inquiry is warranted. An Inquiry is warranted if the Allegation (a) falls within the definition of Research Misconduct in Section 12.17 below; (b) is made against a person to whom this Policy applies; and (c) is sufficiently credible and specific so that potential Evidence of Research Misconduct may be identified. The purpose of an Inquiry is preliminary information-gathering and preliminary fact-finding to determine whether the Allegation warrants a formal Investigation, as described in Section 7 below. An Inquiry is not a formal hearing requiring a full review of all Research Records and Evidence related to the Allegation.
6.2. **Promptly following the RIO’s determination of whether or not an Inquiry is warranted,** the RIO will consult the Vice Chancellor for Research or his or her designee regarding the determination and, if an Inquiry is warranted, regarding the appropriate scope of the Inquiry and the requirements and procedures for securing related Research Records and Evidence. Either before or at the time the RIO notifies the Respondent of the Allegation as provided in Section 6.3 below, the RIO will secure the related Research Records and Evidence in accordance with Section 8.1 below. If the RIO determines that an Inquiry is NOT warranted, he or she will give notice of such determination and a summary of the Allegation to the President in writing.

6.3. 3.1. **If the President decides that an Inquiry of the allegations of Research Misconduct is warranted,** the President will, after consulting with the University Dean for Research, appoint two tenured faculty members actively involved in research in the same field as the subject of the allegations or a related field to serve with the Research Integrity Officer as members of an Inquiry Staff to conduct the Inquiry. The two additional members of the Inquiry Staff need not be members of the faculty of the College where the Inquiry will be conducted. **Once the RIO determines that an Inquiry is warranted,** the RIO will notify the Respondent, the Complainant, and the President in writing of the Allegation that has been filed and that an Inquiry will be conducted. If the Inquiry subsequently identifies additional Respondents, the RIO will also notify them in writing.

6.4. 3.2. **The purpose of the Inquiry is to conduct an initial review of the evidence.** Promptly following the RIO’s determination that an Inquiry is warranted, the securing of the related Research Records and Evidence, and the notifications required under Section 6.3 above, the RIO will conduct an Inquiry to determine whether any of the allegations warrants an Investigation of the Allegation is warranted. An Investigation is warranted if: (1) there is a reasonable basis for concluding that any of the allegations falls within the definition of Research Misconduct in Section 8.15;12.17 below, and (2b) preliminary information-gathering and preliminary fact-finding from the Inquiry indicates that such allegation may have substance.

6.5. 3.3. **Upon completion of the Inquiry,** the Inquiry Staff will prepare and submit a preliminary Inquiry report to the President, the University Dean for Research, and, if the research involved in the allegations is supported by a grant or contract from a federal agency or other sponsor, the President of the Research Foundation, including a recommendation by the majority of the Inquiry Staff as to whether the President should find that an Investigation is warranted. The President will then make the decision whether to include the following information: (a) the name and position of the Respondent; (b) a description of each Allegation of Research Misconduct; (c) whether the Allegation is associated with sponsored
research, and the related contract or grant number, if any; (d) a summary of the steps taken during the Inquiry; (e) a summary of the results of the Inquiry; (f) the basis for concluding that the Allegation falls within the definition of Research Misconduct; (g) a recommendation to the President as to whether or not an Investigation is warranted; provided, however, that the President will consult with the University Dean for Research and (if applicable) the President of the Research Foundation before making a decision that an Investigation is not warranted. The President will notify the Inquiry Staff, the University Dean for Research, and (if applicable) the President of the Research Foundation, of the decision in writing and (h) attachments of any relevant materials used in the Inquiry.

6.6. The RIO will provide the Respondent an opportunity to review and comment on the preliminary Inquiry report. Upon receipt of the comments from the Respondent, the RIO will attach the Respondent's comments to the preliminary Inquiry report and submit this final Inquiry report to the President. Upon receipt of the final Inquiry report, the President, in consultation with the RIO, will make the decision as to whether to refer the case to the Vice Chancellor for Research for an Investigation.

6.7. The Inquiry Staff will complete the preliminary Inquiry report described in Section 3.3 within 45 calendar days of the first meeting of the Inquiry Staff unless circumstances warrant a longer period. The President will make a decision whether to proceed to an Investigation within 15 calendar days of receipt of the preliminary Inquiry report from the Inquiry Staff unless circumstances clearly warrant a longer period. If the Inquiry takes longer than a total of 60 calendar days to complete, the Inquiry record of the Inquiry will include documentation of the reasons for exceeding the 60-day period.

6.8. If the President decides that an Investigation is not warranted, he or she must consult with the Vice Chancellor for Research prior to closing the case. If the Vice Chancellor for Research is in agreement with the President, the matter will be closed and all records of the proceedings treated as confidential pursuant to Section 6.4 to respect the rights and protect the reputations of all parties involved. All reasonable and practical efforts, if requested and as appropriate, will be undertaken to protect or restore the reputation of a subject alleged to have engaged in Research Misconduct when it is determined that an Investigation of the allegations against the subject is not warranted—the Respondent. The RIO will notify the Respondent and the Complainant of this decision in writing.

6.9. If the President decides that an Investigation is warranted, the RIO will so notify the Respondent and the Complainant in writing within a reasonable time after
the President’s decision, but before the Investigation begins. The notice to the Respondent must include a copy of the final Inquiry report and include a copy of, or refer to, this Policy and the relevant regulations or policies of the applicable regulatory agency and/or research sponsor, if any.

6.10. 3.6. If the President decides that an Investigation is warranted, the Inquiry Staff he or she will prepare a final Inquiry report that includes the following information: (1) the name and position of the subject of the allegations; (2) a description of the allegations of Research Misconduct; (3) the federal agency or other sponsor support, if any, including, for example, grant or contract numbers, grant or contract applications, grants or contracts, and publications listing the support; and (4) the basis for recommending that the alleged actions warrant an Investigation. Send the final Inquiry report to the Vice Chancellor for Research for Investigation of the case within 14 calendar days of this decision. If the research involved in the Allegation is supported by a grant or contract from a research sponsor, the Vice Chancellor for Research will notify the President of the Research Foundation and the sponsor in accordance with sponsor requirements.

3.7. The Research Integrity Officer will notify the subject of the allegations in writing whether the President has decided that an Investigation is warranted. If the President has decided that an Investigation is warranted, the notice will include a copy of the final Inquiry report and a copy of or reference to this Policy and, if applicable, the Final Rule. In such a case, the notice and copies of documents will be given before the date the Investigation begins, in sufficient time to provide the subject of the allegations an opportunity to review and comment on the final Inquiry report. The Inquiry Staff will attach any comments received from the subject to the final Inquiry report.

3.8. The Inquiry Staff may notify the individual who made the allegations whether the President has decided that an Investigation is warranted and, if the President has decided that an Investigation is warranted, may provide relevant portions of the final Inquiry report to such individual for comment. Any comments received from such individual will be attached to the final Inquiry report.

3.9. If the research involved in the Allegation is supported by a grant or contract from a federal agency or other sponsor, within 30 calendar days of the President’s decision that an Investigation is warranted (but before the date the Investigation begins), the University Dean for Research will provide the applicable federal agency or other sponsor and the President of the Research Foundation with the written decision by the President and a copy of the final Inquiry report with any comments on the report from the subject of the allegations and the individual making the allegations attached.

Depending on developments in the Inquiry or Investigation, the President may, in consultation with the University Dean Vice Chancellor for Research and the President of the Research Foundation, restore the subject of the allegation to the work under the research grant or contract. The University Dean Vice Chancellor for Research or his or her designee will notify the federal any applicable regulatory agency and/or other research sponsor of the research of any suspension, removal, or restoration decision under this section and will send the President of the Research Foundation a copy of any such notice and any follow-up communications with the regulatory agency or research sponsor.

Except as otherwise prescribed by applicable law, confidentiality will be maintained for any records or evidence from which research subjects might be identified, and disclosure of such records or evidence will be limited to those who have a need to know to carry out a Research Misconduct Proceeding.

Allegations that are brought in good faith may not be the basis of any retaliation against the individual making them, even if the allegations are not substantiated upon Inquiry or Investigation. All reasonable and practical efforts will be undertaken, if requested and as appropriate, to protect or restore the position and reputation of any individual making allegations in good faith, and any witness or other individual involved in a Research Misconduct Proceeding, and to counter potential or actual retaliation against such individuals.

11. RECORD KEEPING

6.9. The University has a continuing obligation under this Policy to ensure that it maintains adequate records of a Research Misconduct Proceeding. Therefore, the Research Integrity Officer will:

(1) either before or when he or she notifies the subject of the allegations of the allegations or an Inquiry or Investigation, promptly take all reasonable and practical steps to (a) obtain custody of all the research records and evidence needed to conduct the Research Misconduct Proceeding, (b) inventory the records and evidence, and (c) sequester them in a secure manner; except that where the research records or evidence encompass scientific instruments shared by a number of users, custody may be limited to copies of the data or evidence on such instruments, so long as those copies are substantially equivalent to the evidentiary value of the instruments. Whenever possible, custody of the research records and evidence will be taken before or at the time the subject is notified of the allegations, and whenever additional items become known or relevant to an Inquiry or Investigation;

(2) where appropriate, give the subject of the allegations copies of, or reasonable supervised access to, the research records;

(3) undertake all reasonable and practical efforts to take custody of additional research records or evidence discovered during the course of a Research Misconduct Proceeding; except that where the research records or evidence encompass scientific instruments shared by a number of users, custody may be limited to copies of the data or evidence on such instruments, so long as those copies are substantially equivalent to the evidentiary value of the instruments; and

(4) The RIO will maintain in a secure manner sufficiently detailed documentation of the Research Misconduct Proceeding, each Inquiry, including related Research Records and Evidence, and the University Director for Research Compliance will maintain in a secure manner sufficiently detailed documentation of each Investigation, including related Research Records and Evidence, for seven years after (a) the completion of the Research Misconduct Proceeding or (b) the completion of any federal regulatory agency or other research sponsor proceeding involving the Allegations of Research Misconduct allegations, whichever is later, in order to permit a later assessment by the federal agency or other sponsor or
otherwise—regulatory agency or research sponsor or otherwise. To the extent that the RIO forwards such original detailed documentation of an Inquiry to the Office of the Vice Chancellor for Research in connection with an Investigation, the University Director for Research Compliance will be responsible for maintaining such documentation for the period provided in this section.

7. FACULTY AND STAFF OBLIGATIONS REGARDING INQUIRIES OR INVESTIGATIONS CONDUCTED BY A FEDERAL AGENCY OR OTHER SPONSOR

If a University faculty or staff member or post-doctoral associate becomes the subject of an inquiry or investigation of any kind conducted by a federal agency or other sponsor of research concerning allegations of Research Misconduct by him or her, such individual must report the existence of the inquiry or investigation immediately in writing to the Chief Academic Officer of his or her College. Upon receiving such notification, the Chief Academic Officer will notify the University Dean for Research and the President of the Research Foundation about the pending inquiry or investigation. Failure to disclose a pending inquiry or investigation pursuant to this Section 7 may subject the University faculty or staff member or post-doctoral associate to disciplinary action or other appropriate action.
