RESOLVED, that the program in Pharmaceutical Science and Business leading to the Master of Science at York College be approved, effective May 4, 2015, subject to financial ability.

EXPLANATION: Responding to the educational and professional needs of graduates of its own and other Pharmaceutical Science undergraduate programs as well as the human resource needs of the pharmaceutical and related industries and the government regulating agencies, York College is proposing a graduate program leading to the M.S. in Pharmaceutical Science and Business. This professional master’s degree combines the science of pharmaceuticals with coursework in regulatory affairs, intellectual property and the business of the pharmaceutical industry. The college intends to build upon its existing collaborations with the Northeast Regional Laboratory of the U.S. Food and Drug Administration located on the college’s campus.
