EXHIBIT B

PROJECT SUMMARY
LEHMAN COLLEGE
CAMPUS WIDE SECURITY SYSTEM SOFTWARE UPGRADE AND MASS NOTIFICATION
PROJECT NO. 2807909999

1. Nature of Action
   Request for permission to execute a Purchase Order for the equipment and services required to upgrade the Lehman College campus-wide security system software and install a mass notification system under the existing New York State Office of General Services Contract Number PT63200.

2. Related Trustee Actions
   Not Applicable

3. Project History
   The College's existing security system is at end-of-life and is no longer supported by the manufacturer. CUNY has received proposals to upgrade to a Siemens security system utilizing existing devices and replacement devices as part of the system. The proposals for the equipment and services are based on certified NYS Office of General Services Administration (OGS) prices.

4. Project Scope
   Siemens will provide components, installation, programming and training for the following proposals:
   1. $557,120.34 GE Diamond II Access Control Conversion to Siemens SiPass for the replacement existing GE Diamond II access control platform.
   2. $125,516.32 GE Diamond II Access Control Conversion to Siemens SiPass for the replacement existing GE Diamond II (infographics) access control equipment in the new Science Facility.
   3. $644,722.11 Conversion of Existing Analog Intrusion Panels w/ IP Solution managed by SiPass to replace the existing analog intrusion panels with IP panels and keyboards to communicate with SiPass.
   4. $941,776.26 Sygnal Campus Mass Notification system for mass communication and emergency communications.

5. Net-to-Gross Efficiency
   Not Applicable

6. Schedule
   Installation Start Summer 2013

7. Project Funding
   Source: DASNY Bonded Funds
   Amounts: $2,500,000

8. Cost
   Per components, installation, programming and training included in Resolution amount.

9. Cost per Square Foot
   Not Applicable
