## PROJECT SUMMARY
Queens College - Perimeter Fence  
Project No. QC051-014

1. **Nature of Action**  
Request for permission to build perimeter fencing at Queens College.

2. **Related Trustee Actions**  
Not Applicable

3. **Project History**  
The Queens College Campus embraces a total of 79 acres, 46 buildings, 18 parking lots, and numerous interconnecting vehicular and pedestrian paths. The entire campus is enclosed by a combination of different perimeter fence types that include tubular steel frame wire mesh, cast iron and aluminum picket fencing, and other types of vertical fencing. Several guarded and unguarded access points exist between the perimeter fence and the surrounding public sidewalks and roads.

This project will create a unified perimeter fence around the two parking lots between the Horace Harding Expressway and Reeves Avenue.

4. **Project Scope**  
Construction scope includes: Remove all existing chain link fence around perimeter of work area; Protect surrounding areas (i.e. existing lights, emergency call boxes); Excavate and backfill area for foundation/footings for fence posts; Provide and install concrete footings for fence posts; Provide and install concrete curbs; Provide and install 6' high wrought iron fence, pedestrian gates (4), and sliding gates (2).

5. **Net-to-Gross Efficiency**  
Not Applicable.

6. **Schedule**  
Bid/Award 2nd Quarter of 2016  
Construction Start 3rd Quarter of 2017  
Construction Finish 2nd Quarter of 2018

7. **Project Funding**  
Source: City Capital Reso-A Funds  
Amounts:  
- Construction: $861,695  
- Equipment: $ 

8. **Cost per Square Foot**  
Not Applicable
