GUTTMAN COMMUNITY COLLEGE

Appointment of Janet Mohlenhoff as Assistant Professor with Waiver of §11.5.1. of the Bylaws

RESOLVED, That the Board of Trustees of The City University of New York approve the appointment of Janet Mohlenhoff as Assistant Professor in the Department of Health Information Technology at Guttman Community College, waiving the terminal degree requirement in §11.5.1. of the Bylaws, effective August 27, 2013.

EXPLANATION: Health Information Technology is a very applied field of study and there is precedent at both CUNY and SUNY to appoint individuals to the professoriate to teach the subject who do not hold a terminal degree. Ms. Mohlenhoff holds a Master’s Degree in Public Administration from Alfred University. She is also certified as a Registered Health Information Administrator. Currently not many individuals hold this certification, yet it is one of two certification options that the Commission on Accreditation for Health Informatics and Information Management Education requires of a director of an academic program in Health Information Technology.

In addition to her academic and certification credentials, Ms. Mohlenhoff has decades of progressive professional experience in this field and will bring all of this expertise to launching the Health Information Technology program at Guttman Community College.
