Note: While CUNY first-time freshman enrollment has grown more than 35% since 1999, USIP enrollment is at about the same level it was in 1999 because first-time freshmen are entering better prepared and are less likely to need basic skills work prior to entry.

Dear Chairman Schmidt:

We appreciate the Board's approval of the CWE contract entitled Jobs to Build On. This approval represents a new chapter in a fruitful relationship between the City University and the Central Labor Council's workforce arm, the Consortium for Worker Education.

This grant is a \$13 million City Council sponsored effort to help alleviate the continuing crisis of long time unemployed residents in numerous communities of our city. The grant will look to the Central Labor Council's unions to find jobs in various sectors such as construction, transportation health and retail.

Thereafter, the program will place job seekers in employment with sustainable wages and sustainable career opportunities. In addition, as outlined in the RFP, we will attempt to structure training, employment and business support systems through partnerships with community based organizations. More than fifty of these Worker Service Centers have been identified with each agreeing to provide recruitment advisement, training and placement. They exist in over forty working class neighborhoods and include two CUNY units serving as Worker Service Centers.

The new localized system, we hope, will increase access, flexibility and dependability in areas most in need of workforce preparation. We think that within the life of this contract, the City Council will have produced a definable and permanent structure for workforce development in a partnership of organized labor, CUNY, NYCHA and this city's more representative community based organizations.

Again, thank you to Chancellor Matthew Goldstein and the Board for this continued confidence in our efforts.

Yours truly,
